

## **Student Corporal Punishment Release Form**

---

In determining whether to use corporal punishment, the following considerations will be taken into account: the seriousness of the offense, the attitude and past behavior of the student, the age and strength of the student, and the availability of equally effective nonphysical means of discipline. (Corporal punishment will never be used for students in preschool grade levels.)

Corporal punishment is used only as a last resort to other forms of punishment and must be approved by the school administrator. Corporal punishment may be administered by the school administrator. One adult employee of the school shall be present to witness the paddling.

A Student Corporal Punishment Release Form approving corporal punishment must be on file prior to administering corporal punishment. **A parent/guardian of the student shall be notified prior to administering corporal punishment.**

Corporal punishment will be administered by paddling the buttocks, no more than three (3) times, of a student with a flat-surfaced paddle that will cause no more than temporary pain and not inflict permanent damage to the body. No other form of corporal punishment is authorized.

I hereby authorize Lindsay Lane Christian Academy to administer corporal punishment as described above.

**I have read and agree to support the LLCA student corporal punishment policy.**
